COUNTY DIRECTORY.

In many instances, the name of two localities follow the name and occupation of citizens. They refer to the precinct of residence and the postoffice respectively;—e. g., Akin, Wm., planter, Garrett's, Forkland, 10, 19, 1 e., indicating Garrett's as his precinct of residence, and Forkland as his post office. The three numbers following, show the location of his residence upon the map, referring to Section 10, Township 19 Range 1 East. Every citizen who settled in the county previous to the year 1824, has the year in which he settled annexed.
